Jim Robison Landscape Vase Forms

Professional Coarse Textured
Crank PF 540

A very coarse clay which contains graded chamotte for added building strength and minimizing shrinkage.

Suitable for all applications especially larger forms this body incorporates the highest possible standards of consistency, plasticity and strength. It is heavily enough grogged to make the most extreme sculptural forms and is highly resistant to warping and cracking.

This clay will be of interest to anyone producing architectural ceramics, handmade tiles, relief panels, murals or restoration work.

Firing range 1170°C - 1300°C

The Sliphouse, 18-20 Chell Street,
Hanley, Stoke-on-Trent ST1 6BA
